SUMMARY

Graduate in IT Software Development with a background in software quality assurance and test automation across platforms. Participated in developing automated testing frameworks maintaining high code quality. Built and maintained comprehensive test suites for diverse applications, using automated and manual testing approaches including functional, regression, and accessibility testing. Work effectively with developers, business analysts, and stakeholders to deliver quality software solutions on schedule. Ready and seeking to contribute to impactful projects within a dynamic team environment.

EXPERIENCE

Inspired Testing | *Software Quality Assurance Tester*   **Mar 2019 – Jun 2020**

- Designed and executed comprehensive test cases based on user stories and functional requirements ensuring thorough coverage of business-critical scenarios
- Conducted cross-browser and device testing across multiple platforms ensuring consistent functionality and optimal user experience
- Performed exploratory testing guided by WCAG standards and accessibility checklists to identify and resolve usability barriers for users with disabilities
- Contributed to test planning efforts, collaborating with cross-functional teams to create and refine robust test plans
- Managed defect logging and reporting using JIRA with focus on technical and defect metrics

Dynamic Visual Technologies | *Automation Tester*   **Jul 2015 – Feb 2019**

- Developed and executed automated test scripts for web and desktop platforms using Selenium and HP UFT frameworks
- Built and maintained automated regression test suites to validate existing functionality after code changes
- Integrated test automation into Jenkins for continuous integration and deployment with real-time reporting
- Participated in all Scrum activities including sprint planning, daily stand-ups, sprint reviews, and retrospectives
- Collaborated with development teams to ensure code quality and feature delivery alignment with stakeholder requirements

SKILLS

Programming Languages: Java, C#, Kotlin, JavaScript, HTML, CSS
Testing Tools: Selenium, HP UFT/ALM,
Development Tools: Visual Studio, Android Studio, Git/GitHub
Database: SQL Developer, MySQL, Firebase (NoSQL), MSDB
Methodologies: Agile
Project Management & Collaboration Tools: JIRA

EDUCATION AND TRAINING

Umuzi   **Jul 2025 - Current**

- Currently undergoing a program focused on professional readiness, technical skill application, and career acceleration

IE Rosebank College   **2024**

- Diploma in Information Technology in Software Development

CERTIFICATIONS

- ISTQB Foundation Level Certified
